[Mexico's first aerospace armoring company in Aguascalientes](#)

Zacatecas.- Carlos Lozano de la Torre, Zacatecas State Governor, received Mr. Arturo Avila Anaya, President of IBN Aerospace and got familiar with the details of a medium-term investment project for a little over US\$10 million in the installation of industrial cells to manufacture ballistic materials for helicopters and airplanes and for automotive and aerospace industry, which when implementation is over will generate a little over 250 new jobs in

Aguascalientes.

Governor Lozano said that the company, world leader in automotive armoring, military and aerospace products, found in Aguascalientes not only an unsurpassable geographical location to expand their operations, but also excellent labor environment and operational capacity, which will be essential to make this first investment fructify fast.
